# Introduction

The Nomenclature of Territorial Units for Statistics (NUTS) was drawn up by Eurostat decades ago in order to provide a breakdown of the economic territory of the European Union<sup>1</sup> into territorial units for the production of regional statistics and for targeting political interventions at a regional level. The NUTS classification has been used in EU legislation since 1988<sup>2</sup>, however, it was only encoded into a formal Regulation of the European Parliament and the Council in 2003<sup>3</sup>.

The NUTS classification can normally only be amended after at least three years have passed since the previous version. Amendments were established in 2006, 2010, 2013 and 2016<sup>4</sup>. Another, extraordinary amendment was organised in 2014 following a substantial reorganisation of the administrative structure in Portugal. This publication covers the fifth regular revision of the NUTS regions, called "NUTS 2021". It comes into effect on 1 January 2021 and replaces NUTS 2016. Note that this new version is called after the year when data will become available on this new breakdown; before and up to NUTS 2016 including, the versions were called after the rather technical date of the adoption of the underlying legislation by the Commission. At the time of the adoption of the underlying legal act defining NUTS 2021, UK was still a member of the European Union, so that its regions are included in NUTS 2021.

Correspondence tables showing the differences between every NUTS version since 1999 are available on the Eurostat website<sup>5</sup>. The website also offers a viewer of the different NUTS versions in the statistical atlas<sup>6</sup>.

The NUTS serves several objectives:

- It ensures harmonised standards in the collection and transmission of regional data;
- It guarantees that published regional statistics are based on comparable data;
- It enables the analysis and comparison of the socio-economic situation of the regions based on harmonised data;
- Policy interventions such as the European Structural and Investment Funds<sup>7</sup> can be specifically targeted to support disadvantaged and less competitive regions.

The purpose of this publication is to present the European regions according to the NUTS 2021 classification in the form of tables and maps. It replaces the previous Eurostat publication on NUTS 2016 issued in 2018, and includes all the changes which have taken place since then. In addition, this document presents the "statistical regions". This is a concept very similar to the one of NUTS, and covers the regions from EFTA and candidate countries, allowing us to show data of these countries together with the one of the EU and the UK.

The maps in this document are simply intended to enable the reader to locate the regions; the regional boundaries shown are also indicative. The scales used differ depending on the country. The countries are listed in the official protocol order, which is alphabetically based on the spelling of each in its own national language.

European regional statistics according to the NUTS breakdown can be accessed through the Eurostat online database<sup>8</sup>. Depending on the domain and variable concerned, regional statistics are available at one or more of the three NUTS levels.

Some examples of regional datasets available on Eurostat's website at the NUTS 2 level are:

<sup>1</sup> Reference for the definition of the economic territory of the EU: Regulation (EU) No 549/2013 of the European Parliament and of the Council of 21 May 2013 on the European system of national and regional accounts in the European Union (ESA 2010 (European System of Accounts)) Annex A: points 2.05, 13.11 and 12, OJ L 174, 26.06.2013.

<sup>2</sup> Council Regulation (EEC) No 2052/88 on the tasks of the Structural Funds: OJ L 185, 15.7.1988.

<sup>3</sup> Regulation (EC) No 1059/2003 of the European Parliament and the Council on the establishment of a common classification of territorial units for statistics (NUTS); OJ L 154, 21.6.2003. The consolidated version of the Regulation is set out in Annex 1 of this document. Note that this consolidated version also includes changes brought by the Regulation (EU) 2017/2391 of the European Parliament and of the Council of 12 December 2017 amending Regulation (EC) No 1059/2003 as regards the territorial typologies (Tercet); OJ L 350, 29.12.2017, p. 1

<sup>4</sup> Amendments take place in form of delegated acts. All corresponding legislation is available on the NUTS website: <https://ec.europa.eu/eurostat/web/nuts/legislation>.

<sup>5</sup> <http://ec.europa.eu/eurostat/web/nuts/history>.

- agriculture
  - animal populations
  - production of cow's milk on farms
- demography
  - population by age and sex
  - fertility rates by age
  - life expectancy by age and sex
- regional economic accounts
  - gross domestic product at current market prices
- labour market
  - employment by sex and age
  - average number of usual weekly hours of work in the main job
- education
  - number of students by age and sex
  - early leavers from education and training by sex
- poverty and social exclusion
  - at-risk-of-poverty-rate

... and many more, covering aspects of science and technology, business, tourism, transport, labour costs, information society, crime as well as environment and energy in addition to those mentioned above. A complete overview is available on the Eurostat website.

## Basic principles

The NUTS classification subdivides the economic territory of the EU Member States and the UK into territorial units (regions), whereby the following principles apply:

(a) *The NUTS classification includes three hierarchical levels*

The classification is made up of three hierarchical levels: each Member State and the UK are divided into NUTS 1 regions, which in turn are subdivided into NUTS 2 regions and then divided further into NUTS 3 regions. Each of these regions is allocated a specific code and name. Since several different regions within Europe have the same name, a distinction has been made by adding to each of these the abbreviation for the country concerned. The following table shows the NUTS 1 region "MACROREGIUNEA UNU" of Romania, including its breakdown into NUTS 2 (Nord-Vest) and NUTS 3 regions, as an example:

RO1	MACROREGIUNEA UNU
RO11	Nord-Vest
RO111	Bihor
RO112	Bistrița-Năsăud
RO113	Cluj
RO114	Maramureș
RO115	Satu Mare
RO116	Sălaj

Some regions appear at more than one level (for example: Luxembourg appears as the country and also for NUTS levels 1, 2 and 3). In such cases, the codes end in zero for a region with an identical territory at the next lower level. For Luxembourg, the NUTS 1 code is "LU0", the NUTS 2 code is "LU00" and the NUTS 3 code is "LU000". The labels do not need to be identical at the different levels, even if the regions concerned cover identical territory.

(b) *NUTS favours administrative units<sup>9</sup> already existing in the Member States*

Existing administrative units within the Member States and the UK constitute the very first criterion for the definition of the NUTS regions. The main reason for this is that the existence of administrative structures usually supports the availability of data and the implementation capacity of policy measures.

If no administrative units exist for a given level, it can be constituted by aggregating smaller administrative units to that higher level. This aggregation shall take geographical, socio-economic, historical, cultural or environmental circumstances into consideration. The resulting aggregated units are referred to as "non-administrative units".

Examples of administrative and non-administrative units being designated as NUTS regions are:

<b>NUTS level</b>	<b>Germany</b>	<b>Spain</b>	<b>Czechia</b>	<b>Italy</b>
NUTS 1	Bundesländer	<i>non-administrative aggregations</i>	Území	<i>non-administrative aggregations</i>
NUTS 2	Regierungsbezirke ( <i>nonadministrative aggregations</i> )	Comunidades autónomas	<i>Regiony soudržnosti</i> ( <i>nonadministrative aggregations</i> )	Regioni
NUTS 3	Kreise und Kreisfreie Städte	Provincias	Kraje	Province

(c) *The NUTS Regulation lays down minimum and maximum thresholds for the population size of the regions*

The average size of the regions in the respective level shall lie within the following thresholds:

<b>Level</b>	<b>Minimum</b>	<b>Maximum</b>
NUTS 1	3 million	7 million
NUTS 2	800 000	3 million
NUTS 3	150 000	800 000

For non-administrative units, deviations exist for particular geographical, socio-economic, historical, cultural or environmental circumstances, especially for islands and outermost regions.

(d) *The NUTS are complemented at the lower level by local administrative units (LAU)*

Districts and municipalities constitute a more detailed level than NUTS 3. These are called 'Local Administrative Units' (LAUs) and are the lower-level building blocks of the NUTS regions<sup>10</sup>.

## Amending NUTS

The NUTS Regulation lays down the rules for amendments of the regional breakdown.

No earlier than at least three years after the previous amendment, the Commission can launch the procedure to renew the classification, often following notifications by Member States about changes in their administrative (or non-administrative) structures. In close cooperation with the Member States, the Commission initiates the legislative procedure to amend the annexes of the NUTS Regulation, in which the territorial units are specified.

A number of detailed rules apply; while changes in national administrative regions lead virtually automatically to a change in the NUTS classification, for non-administrative units the NUTS Regulation stipulates that changes must entail a reduction of the standard deviation of the size in terms of population of all NUTS units.

<sup>9</sup> An "administrative unit" is a geographical area with an administrative authority that has the power to take administrative or policy decisions for that area within the legal and institutional framework of the Member State (Regulation 1083/2003, art. 3 (2)).

<sup>10</sup> <http://ec.europa.eu/eurostat/web/nuts/local-administrative-units>.

The latest amendment round, whose results are reflected in this publication, was specified in the Commission Delegated Regulation 2019/1755 of 8 August 2019, entered into force on 24 October 2019 and applies, with regard to the transmission of data to the Commission (Eurostat), from 1 January 2021. All agreed changes are reflected in this publication.

## Purpose of NUTS

The NUTS serves as a reference:

- (a) *For the collection, development and harmonisation of the European Union's regional statistics*

During the 1970s, NUTS gradually replaced the specific divisions used in the various statistical domains (agricultural regions, transport regions, etc.), and it was on the basis of NUTS that regional economic accounts were developed and the regional sections of EU surveys were defined.

The NUTS still ensures that regional data is collected on an agreed and harmonised basis, making certain that the data is comparable between the regions.

- (b) *For socio-economic analyses of the regions*

The different levels of NUTS provide an analytical scheme. The 1961 Brussels Conference on Regional Economies, organised by the Commission, found that NUTS 2 (basic regions) was the framework generally used by Member States to apply their regional policies and is therefore the appropriate level for analysing regional/national problems until now. On the other hand, NUTS 1 (major socio-economic regions grouping together basic regions) should be used for analysing regional problems within the EU, such as 'the effect of the customs union and economic integration on areas at the next level down from national areas'. NUTS 3, which broadly comprises regions which are too small for complex economic analyses, may be used for specific analysis or to pinpoint where regional measures need to be taken.

- (c) *For the framing of EU regional policies*

The new rules in the legislation governing the programming period of EU Cohesion Policy funding for 2014-2020 state that Structural Funds support is now solely based on the classification of NUTS 2 regions. For the purpose of receiving funding from the Structural Funds, NUTS 2 regions are classified into less developed regions, transition regions and more developed regions. The allocation of resources from the Funds depends on this classification<sup>11</sup>. This should work similarly for cohesion funding in the programming period 2021-2027<sup>12</sup>.

## Regional classification beyond the EU

The NUTS nomenclature is only defined for the 27 Member States of the European Union and the UK. For the countries that make up the European Free Trade Association (EFTA), regions have been encoded in a way which resembles the NUTS.

Concerning the EU candidate countries and the potential candidates, Eurostat has drafted together with them a nomenclature of statistical regions intended to produce a hierarchy similar to the NUTS<sup>13</sup>. On accession to the EU, the breakdown into statistical regions in force in a given country, agreed bilaterally, will become part of the NUTS and subject to its provisions in the NUTS Regulation.

## Main characteristics

The current NUTS nomenclature, applicable from 1 January 2018, subdivides the economic territory of the European Union and the UK into 104 regions at NUTS 1 level, 283 regions at NUTS 2 level and 1 345 regions at NUTS 3 level.

<sup>11</sup> <http://eur-lex.europa.eu/legal-content/EN/TXT/PDF/?uri=CELEX:32013R1303&from=EN>.

<sup>12</sup> [https://ec.europa.eu/commission/publications/cohesion-and-values\\_en](https://ec.europa.eu/commission/publications/cohesion-and-values_en)

<sup>13</sup> <http://ec.europa.eu/eurostat/web/nuts/statistical-regions-outside-eu>.

Below those, the Local Administrative Units (LAUs) have been defined. This LAU level consists of around 96 000 municipalities or equivalent units in the 27 EU Member States and the UK (as of 31 December 2018).

The aim of the NUTS classification is to ensure that comparable regions appear at the same NUTS level. With the population size being defined in the NUTS Regulation as a key indicator for comparability, each level inevitably contains regions that differ greatly in terms of area, economic weight or administrative powers.

Some examples below illustrate the heterogeneity of the regions, focusing here on area size and the population figures:

## **Area size**

### **NUTS 1**

#### **Largest:**

Manner-Suomi (Finland), 336 830 km<sup>2</sup> and Norra Sverige (Sweden), 312 432 km<sup>2</sup>

#### **Smallest:**

Région de Bruxelles-Capitale / Brussels Hoofdstedelijk Gewest (Belgium), 162 km<sup>2</sup> and Malta, 316 km<sup>2</sup>

### **NUTS 2**

#### **Largest:**

Pohjois- ja Itä-Suomi (Finland), 227 120 km<sup>2</sup> and Övre Norrland (Sweden), 164 083 km<sup>2</sup>

#### **Smallest:**

Ciudad Autónoma de Melilla (Spain), 14 km<sup>2</sup> and Ciudad Autónoma de Ceuta (Spain), 20 km<sup>2</sup>

### **NUTS 3**

#### **Largest:**

Norrbottens län (Sweden), 105 208 km<sup>2</sup> and Lappi (Finland), 98 983 km<sup>2</sup>

#### **Smallest:**

Like NUTS 2 (Melilla and Ceuta, Spain), followed by Tower Hamlets and Westminster (UK) with 20 km<sup>2</sup> resp. 21 km<sup>2</sup>

## **Population (approximations)**

### **NUTS 1**

#### **Largest:**

Nordrhein-Westfalen (Germany), 17.9 million and Nord-Ovest (Italy), 16.1 million

#### **Smallest:**

Åland (Finland), 29 500 and the Região Autónoma dos Açores (Portugal), 243 900

### **NUTS 2**

#### **Largest:**

Île de France (France), 12.2 million and Lombardia (Italy), 10 million

#### **Smallest:**

Åland (Finland), 29 500 and the Ciudad Autónoma de Melilla (Spain), 84 700

## NUTS 3

### Largest:

Madrid (Spain), 6.5 million and Barcelona (Spain), 5.5 million

### Smallest:

El Hierro (Spain), 11 000 and Evrytania (Greece), 19 000 inhabitants.

Tables 2 and 3 show the largest, smallest and average areas and populations at the three NUTS levels, for each Member State and for the European Union as a whole.

## Changes compared to 2016

Aside from name changes, there were no changes at NUTS 1 level. Croatia modified the NUTS 2 level. In five countries changes at NUTS 3 level occurred. Norway modified its structure on the levels 2 and 3.

The changes in the current NUTS version (NUTS 2021) compared to NUTS 2016 and in the statistical regions ("SR") are as follows:

Country	NUTS/SR 1	NUTS/SR 2	NUTS/SR 3
BE	1 region name slightly changed		NUTS 3 regions of BE32 modified (2 suppressed, 2 newly created, 4 boundary changes)
CZ	name "Česká republika" changed into "Česko"		
EE			EE006 and EE007 recoded into EE009 and EE00A (boundary changes)
ES	several region names changed		
FR	several region names updated		
HR		1 region (HR03) discontinued, 3 new created	NUTS 3 regions of ex-HR03 rearranged to newly created NUTS 2 regions
IT			Sardinia (ITG2) rearranged: 4 regions discontinued, 4 with boundary changes, 1 newly created
UK			UKK21 and 22 recoded and renamed due to boundary change, UKN10-UKN16 recoded into UKN0A-UKN0G
NO	7 regions modified into 6		18 regions modified into 11
all	new spelling of NUTS 1 names: instead of capital letters only now in normal writing language		

**Table 1:** Correspondence between the NUTS levels and the national administrative units (based on NUTS 2021 and LAU 2019)

## **REGULATION (EC) No 1059/2003 OF THE EUROPEAN PARLIAMENT AND OF THE COUNCIL of 26 May 2003 on the establishment of a common classification of territorial units for statistics (NUTS)<sup>14</sup>**

THE EUROPEAN PARLIAMENT AND THE COUNCIL OF THE EUROPEAN UNION,

Having regard to the Treaty establishing the European Community, and in particular Article 285 thereof,

Having regard to the proposal from the Commission<sup>15</sup>,

Having regard to the opinion of the European Economic and Social Committee<sup>16</sup>,

Having regard to the opinion of the Committee of the Regions<sup>17</sup>,

Acting in accordance with the procedure laid down in Article 251 of the Treaty<sup>18</sup>,

Whereas:

- (1) Users of statistics express an increasing need for harmonisation in order to have comparable data across the European Union. In order to function, the internal market requires statistical standards applicable to the collection, transmission and publication of national and Community statistics so that all operators in the single market can be provided with comparable statistical data. In this context, classifications are an important tool for the collection, compilation and dissemination of comparable statistics.
- (2) Regional statistics are a cornerstone of the European Statistical System. They are used for a wide range of purposes. For many years European regional statistics have been collected, compiled and disseminated on the basis of a common regional classification, called "Nomenclature of territorial units for statistics" (hereinafter referred to as NUTS). It is now appropriate to fix this regional classification in a legal framework and to institute clear rules for future amendments of this classification. The NUTS classification should not preclude the existence of other subdivisions and classifications.
- (3) Accordingly, all Member States' statistics transmitted to the Commission, which are broken down by territorial units, should use the NUTS classification, where applicable.
- (4) In its analysis and dissemination, the Commission should use the NUTS classification for all statistics classified by territorial units, where applicable.
- (5) Different levels are needed for regional statistics depending on the purpose of these statistics at national and European level. It is appropriate to have at least three hierarchical levels of detail in the European regional NUTS classification. Member States could have further levels of NUTS details, where they consider it necessary.
- (6) Information on the current territorial composition of NUTS level 3 regions is necessary for the proper administration of the NUTS classification and should therefore be transmitted regularly to the Commission.
- (7) Objective criteria for the definition of regions are necessary in order to ensure impartiality when regional statistics are compiled and used.
- (8) Users of regional statistics need stability of the nomenclature over time. The NUTS classification should hence not be amended too frequently. This Regulation will ensure a greater stability of rules over time.

14 Latest consolidated version as of 18.01.2018. See: <https://eur-lex.europa.eu/legal-content/EN/TXT/?uri=CELEX:02003R1059-20180118>.

15 OJ C 180 E, 26.6.2001, p. 108.

16 OJ C 260, 17.9.2001, p. 57.

17 OJ C 107, 3.5.2002, p. 54.

18 Opinion of the European Parliament of 24 October 2001 (OJ C 112 E, 9.5.2002, p. 146), Council Common Position of 9 December 2002 (OJ C 32 E, 11.2.2003, p. 26) and Decision of the European Parliament of 8 April 2003 (not yet published in the Official Journal).

- (9) Comparability of regional statistics requires that the regions be of a comparable size in terms of population. In order to achieve this goal, amendments of the NUTS classification should render the regional structure more homogeneous in terms of population size.
- (10) The actual political, administrative and institutional situation must also be respected. Non-administrative units must reflect economic, social, historical, cultural, geographical or environmental circumstances.
- (11) Reference should be made to the definition of the "population" on which the classification is based.
- (12) The NUTS classification is restricted to the economic territory of the Member States and does not provide complete coverage of the territory to which the Treaty establishing the European Community applies. Its use for Community purposes will therefore need to be assessed on a case-by-case basis. The economic territory of each country, as defined in Commission Decision 91/450/EEC<sup>19</sup>, also includes extraregio territory, made up of parts of the economic territory that cannot be attached to a certain region (air-space, territorial waters and the continental shelf, territorial enclaves, in particular embassies, consulates and military bases, and deposits of oil, natural gas, etc. in international waters, outside the continental shelf, worked by resident units). The NUTS classification must also provide the possibility of statistics for this extraregio territory.
- (13) Amendments to the NUTS classification will require close consultations with the Member States.
- (14) Since the objective of the proposed action, namely the harmonisation of regional statistics, cannot be sufficiently achieved by the Member States and can therefore be better achieved at Community level, the Community may adopt measures, in accordance with the principle of subsidiarity as set out in Article 5 of the Treaty. In accordance with the principle of proportionality, as set out in that Article, this Regulation does not go beyond what is necessary in order to achieve that objective.
- (15) The NUTS classification laid down in this Regulation should replace the "Nomenclature of territorial units for statistics (NUTS)" established to date by the Statistical Office of the European Communities in cooperation with the national statistical institutes. As a consequence, all references in Community acts to the "Nomenclature of territorial units for statistics (NUTS)" should now be understood as referring to the NUTS classification laid down in this Regulation.
- (16) Council Regulation (EC) No 322/97 of 17 February 1997 on Community Statistics<sup>20</sup> constitutes the reference framework for the provisions of this Regulation.
- (17) The measures necessary for the implementation of this Regulation should be adopted in accordance with Council Decision 1999/468/EC of 28 June 1999 laying down the procedures for the exercise of implementing powers conferred on the Commission<sup>21</sup>.
- (18) The Statistical Programme Committee established by Council Decision 89/382/EEC, Euratom<sup>22</sup> has been consulted in accordance with Article 3 thereof,

HAVE ADOPTED THIS REGULATION:

## **Article 1 Subject matter**

- (1) This Regulation establishes a common statistical classification of territorial units (NUTS), in order to enable the collection, compilation and dissemination of European statistics at different territorial levels of the Union.
- (2) The NUTS classification is set out in Annex I.
- (3) Local administrative units (LAU), as referred to in Article 4, shall complement the NUTS classification.
- (4) Statistical grids, as referred to in Article 4a, shall complement the NUTS classification. Those statistical grids shall be used to calculate population-based territorial typologies.

<sup>19</sup> OJ L 240, 29.8.1991, p. 36.

<sup>20</sup> OJ L 52, 22.2.1997, p. 1.

<sup>21</sup> OJ L 184, 17.7.1999, p. 23.

<sup>22</sup> OJ L 181, 28.6.1989, p. 47.

- (5) Union territorial typologies, as referred to in Article 4b, shall complement the NUTS classification by attributing types to the territorial units.

## Article 2 Structure

- (1) The NUTS classification subdivides the economic territory of the Member States, as defined in Decision 91/450/EEC, into territorial units. It ascribes to each territorial unit a specific code and name.
- (2) The NUTS classification is hierarchical. It subdivides each Member State into NUTS level 1 territorial units, each of which is subdivided into NUTS level 2 territorial units, these in turn each being subdivided into NUTS level 3 territorial units.
- (3) However, a particular territorial unit may be classified at several NUTS levels.
- (4) At the same NUTS level, two different territorial units in the same Member State may not be identified by the same name. If two territorial units in different Member States have the same name, the country identifier is added to the territorial units' names.

## Article 3 Classification criteria

- (1) Existing administrative units within the Member States shall constitute the first criterion used for the definition of territorial units.

To this end, 'administrative unit' shall mean a geographical area with an administrative authority that has the power to take administrative or policy decisions for that area within the legal and institutional framework of the Member State.

- (2) In order to establish the relevant NUTS level in which a given class of administrative units in a Member State is to be classified, the average size of this class of administrative units in the Member State shall lie within the following population thresholds:

<b>Level</b>	<b>Minimum</b>	<b>Maximum</b>
NUTS 1	3 million	7 million
NUTS 2	800 000	3 million
NUTS 3	150 000	800 000

If the population of a whole Member State is below the minimum threshold for a given NUTS level, the whole Member State shall be one NUTS territorial unit for this level.

- (3) For the purpose of this Regulation, the population of a territorial unit shall consist of those persons who have their usual place of residence in this area.
- (4) The existing administrative units used for the NUTS classification are set out in Annex II. The Commission shall be empowered to adopt delegated acts in accordance with Article 7a to amend Annex II on the basis of the changes in the administrative units that have been communicated to it by the Member State concerned in accordance with Article 5(1).
- (5) If for a given level of NUTS no administrative units of a suitable scale exist in a Member State, in accordance with the criteria referred to in paragraph 2, this NUTS level shall be constituted by aggregating an appropriate number of existing smaller contiguous administrative units. This aggregation shall take into consideration such relevant criteria as geographical, socio-economic, historical, cultural or environmental circumstances.

The resulting aggregated units shall hereinafter be referred to as 'non-administrative units'. The size of the non-administrative units in a Member State for a given NUTS level shall lie within the population thresholds referred to in paragraph 2.

Some non-administrative units may, however, deviate from those thresholds because of particular geographical, socioeconomic, historical, cultural or environmental circumstances, especially in the islands and the outermost regions.

#### **Article 4 Local administrative units**

- (1) In each Member State, local administrative units (LAU) shall subdivide NUTS level 3 into one or two further levels of territorial units. At least one of the LAU levels shall be an administrative unit as defined in Article 3(1) and as set out in Annex III. The Commission shall be empowered to adopt delegated acts in accordance with Article 7a to amend the list of LAU in Annex III on the basis of the changes in the administrative units that have been communicated to it by the Member State concerned in accordance with Article 5(1).
- (2) Within the first six months of each year, Member States shall transmit to the Commission (Eurostat), with reference to 31 December of the previous year, the list of LAU indicating any changes and the NUTS 3 region to which they belong. In doing so it shall follow the electronic data format requested by the Commission (Eurostat).
- (3) The Commission (Eurostat) shall publish the list of LAU in the dedicated section of its website by 31 December of each year.

#### **Article 4a Statistical grids**

The Commission (Eurostat) shall maintain and publish a system of statistical grids at Union level in the dedicated section of its website. The statistical grids shall conform to the specifications laid down in Commission Regulation (EU) No 1089/2010 (¹).

#### **Article 4b Union territorial typologies**

- (1) The Commission (Eurostat) shall maintain and publish in the dedicated section of its website Union typologies composed of territorial units at the levels of NUTS, LAU and grid cells.
- (2) The grid-based typology shall be established at the 1 km² grid resolution level as follows:
  - ‘urban centres’,
  - ‘urban clusters’,
  - ‘rural grid cells’.
- (3) The following typologies shall be established at LAU level:
  - (a) degree of urbanisation (DEGURBA):
    - ‘Urban areas’:
      - ‘Cities’ or ‘Densely populated areas’,
      - ‘Towns and suburbs’ or ‘Intermediate density areas’,
    - ‘Rural areas’ or ‘Thinly populated areas’;
  - (b) functional urban areas:
    - ‘Cities’ plus their ‘Commuting zones’;
  - (c) coastal areas:
    - ‘Coastal areas’;

— ‘Non-coastal areas’.

If there is more than one administrative level of LAU in a Member State, the Commission (Eurostat) shall consult that Member State to determine the administrative level of LAU that shall be used for the attribution of typologies.

(4) The following typologies and labels shall be established at NUTS level 3:

(a) urban-rural typology:

- ‘Predominantly urban regions’,
- ‘Intermediate regions’,
- ‘Predominantly rural regions’;

(b) metropolitan typology:

- ‘Metropolitan regions’,
- ‘Non-metropolitan regions’;

(c) coastal typology:

- ‘Coastal regions’,
- ‘Non-coastal regions’.

(5) The Commission shall, by means of implementing acts, set out uniform conditions for the harmonised application of the typologies at Union level. Those conditions shall describe the method according to which the typologies will be assigned to the individual LAU and NUTS level 3 regions. When applying the uniform conditions, the Commission shall take into account geographical, socioeconomic, historical, cultural and environmental circumstances. Those implementing acts shall be adopted in accordance with the examination procedure referred to in Article 7.

## **Article 5** **Amendments to NUTS**

(1) The Member States shall inform the Commission of:

- (a) all changes that have occurred in administrative units, in so far as they may affect the NUTS classification, as laid down in Annex I, or the contents of Annexes II and III;
- (b) all other changes at the national level that may affect the NUTS classification, in accordance with the classification criteria laid down in Article 3.

(2) Changes to NUTS level 3 boundaries due to changes of smaller administrative units as laid down in Annex III:

- (a) shall not be considered as amendments of NUTS if they involve a population transfer equal to or less than one percent of the NUTS 3 territorial units concerned;
- (b) shall be considered as amendments of NUTS, in accordance with paragraph 3 of this Article, if they involve a population transfer of more than one percent of the NUTS 3 territorial units concerned.

(3) Amendments to the NUTS for the non-administrative units in a Member State, as referred to in Article 3(5), may be made if, at the NUTS level in question, the amendment reduces the standard deviation of the size in terms of population of all EU territorial units.

(4) Amendments to the NUTS classification in Annex I shall be adopted in the second half of the calendar year, every three years at the earliest, on the basis of the criteria set out in Article 3. Nevertheless, if there is a substantial reorganisation of the relevant administrative structure of a Member State, such amendments to the NUTS classification may be adopted at shorter intervals.

The Commission shall be empowered to adopt delegated acts in accordance with Article 7a to amend the NUTS classification referred to in the first subparagraph of this paragraph on the basis of the changes in

the territorial units that have been communicated to it by the Member State concerned in accordance with paragraph 1 of this Article. Regional data which the Member States send to the Commission (Eurostat) shall be based on the amended NUTS classification starting from 1 January of the second year after the adoption of that delegated act.

- (5) In the event that the Commission adopts a delegated act as referred to in paragraph 4, the Member State concerned shall transmit to the Commission (Eurostat) the time series for the new regional breakdown, to replace data already transmitted. The Member State concerned shall transmit these time series by 1 January of the fourth year after the adoption of that delegated act.

The Commission shall, by means of implementing acts, set out uniform conditions for time series and their length, taking into account the feasibility of providing them. Those implementing acts shall be adopted in accordance with the examination procedure referred to in Article 7.

## **Article 6 Management**

The Commission shall take the necessary measures to ensure the consistent management of the NUTS classification. In particular, such measures may include:

- (a) drafting and updating of explanatory notes on NUTS;
- (b) examination of problems arising from the implementation of NUTS in the Member States' classifications of territorial units.

## **Article 7 Committee procedure**

- (1) The Commission shall be assisted by the European Statistical System Committee. That committee shall be a committee within the meaning of Regulation (EU) No 182/2011.
- (2) Where reference is made to this paragraph, Article 5 of Regulation (EU) No 182/2011 shall apply.

## **Article 7a Exercise of the delegation**

- (1) The power to adopt delegated acts is conferred on the Commission subject to the conditions laid down in this Article.
- (2) The power to adopt delegated acts referred to in Articles 3(4), 4(1) and 5(4) shall be conferred on the Commission for a period of five years from 18 January 2018. The Commission shall draw up a report in respect of the delegation of power not later than nine months before the end of the five-year period. The delegation of power shall be tacitly extended for periods of an identical duration, unless the European Parliament or the Council opposes such extension not later than three months before the end of each period.
- (3) The delegation of power referred to in Articles 3(4), 4(1) and 5(4) may be revoked at any time by the European Parliament or by the Council. A decision of revocation shall put an end to the delegation of the power specified in that decision. It shall take effect on the day following the publication of the decision in the *Official Journal of the European Union* or at a later date specified therein. It shall not affect the validity of any delegated acts already in force.
- (4) Before adopting a delegated act, the Commission shall consult experts designated by each Member State in accordance with the principles laid down in the Interinstitutional Agreement of 13 April 2016 on Better Law-Making.
- (5) As soon as it adopts a delegated act, the Commission shall notify it simultaneously to the European Parliament and to the Council.

- (6) A delegated act adopted pursuant to Articles 3(4), 4(1) and 5(4) shall enter into force only if no objection has been expressed either by the European Parliament or by the Council within a period of two months of notification of that act to the European Parliament and the Council or if, before the expiry of that period, the European Parliament and the Council have both informed the Commission that they will not object. That period shall be extended by two months at the initiative of the European Parliament or of the Council.

## **Article 9 Entry into force**

This Regulation shall enter into force on the 20th day following that of its publication in the *Official Journal of the European Union*.

This Regulation shall be binding in its entirety and directly applicable in all Member States.

## **ANNEX I The NUTS classification**

### **ANNEX II Existing administrative units**

At NUTS level 1 for Belgium 'Gewesten/Régions', for Germany 'Länder', for France 'Régions', for Portugal 'Continente', 'Região Autónoma dos Açores' and 'Região Autónoma da Madeira', and for United Kingdom 'Scotland, Wales, Northern Ireland' and the 'Government Office Regions of England'.

At NUTS level 2 for Belgium 'Provinces/Provinces', for Denmark 'Regioner', for Greece 'Περιφέρειες (Peripheries)', for Spain 'Comunidades Autónomas, Ciudades Autónomas', for Italy 'Regioni', for the Netherlands 'Provinces', for Austria 'Länder' and for Poland 'Województwa'.

At NUTS level 3 for Belgium 'Arrondissementen/Arrondissements', for Bulgaria 'Области (Oblasti)', for Czechia 'Kraje', for Germany 'Kreise, kreisfreie Städte', for Spain 'Provincias, Consejos insulares' and 'Cabildos', for France 'Départements', for Croatia 'Županije', for Italy 'Provincie', for Lithuania 'Apskritys', for Hungary 'Megyék', for Portugal 'Entidades Intermunicipais', 'Região Autónoma dos Açores' and 'Região Autónoma da Madeira', for Romania 'Județe', for Slovakia 'Kraje', for Sweden 'Län' and for Finland 'Maakunnat/Landskap'.

## **ANNEX III Local administrative units**

For Belgium 'Gemeenten/Communes', for Bulgaria 'Населени места (Naseleni mesta)', for Czechia 'Obce', for Denmark 'Kommuner', for Germany 'Gemeinden', for Estonia 'Linn, vald', for Greece 'Δήμοι (Dimoi)', for Spain 'Municipios', for France 'Communes', for Croatia 'Gradovi, općine', for Ireland 'Counties, County boroughs', for Italy 'Comuni', for Cyprus 'Δήμοι, κοινότητες (Dimoi, koinotites)', for Latvia 'Republikas pilsētas, novadi', for Lithuania 'Savivaldybės', for Luxembourg 'Communes', for Hungary 'Települések', for Malta 'Localities', for the Netherlands 'Gemeenten', for Austria 'Gemeinden', for Poland 'Gminy', for Portugal 'Freguesias', for Romania 'Municipii, Orașe' and 'Comune', for Slovenia 'Občine', for Slovakia 'Obce', for Finland 'Kunnat/Kommuner', for Sweden 'Kommuner' and for the United Kingdom 'Local authorities'.

## Annex 2

### **COMMISSION DELEGATED REGULATION 2019/1755 of 8 August 2019 amending the Annexes to Regulation (EC) No 1059/2003 of the European Parliament and of the Council on the establishment of a common classification of territorial units for statistics (NUTS)**

THE EUROPEAN COMMISSION,

Having regard to the Treaty on the Functioning of the European Union,

Having regard to Regulation (EC) No 1059/2003 of the European Parliament and of the Council of 26 May 2003 on the establishment of a common classification of territorial units for statistics (NUTS), and in particular Articles 3(4), 4(1) and 5(4) thereof,

Whereas:

- (1) Regulation (EC) No 1059/2003 establishes a common classification of territorial units to enable the collection, compilation and dissemination of harmonised regional statistics in the Union.
- (2) The Annexes to Regulation (EC) No 1059/2003 list the territorial units to be used for statistics.
- (3) In accordance with Article 5(4) of Regulation (EC) No 1059/2003, amendments to the NUTS classification are to be adopted in the second half of the calendar year, and usually not more frequently than every three years.
- (4) The NUTS classification was last amended by Commission Regulation (EU) 2016/2066.
- (5) According to the information provided to the Commission by Member States, the territorial division of several Member States has changed since the NUTS classification was last amended.
- (6) Regulation (EC) No 1059/2003 should therefore be amended accordingly,

HAS ADOPTED THIS REGULATION:

#### *Article 1*

Annexes I, II and III to Regulation (EC) No 1059/2003 are replaced by the text in the Annex to this Regulation.

#### *Article 2*

This Regulation shall enter into force on the twentieth day following that of its publication in the Official Journal of the European Union.

In accordance with Article 5(4) of Regulation (EC) No 1059/2003, it shall apply for the transmission of data to the Commission (Eurostat) from 1 January 2021.

This Regulation shall be binding in its entirety and directly applicable in all Member States.

Done at Brussels, 8 August 2019.

## Annex 3

**COMMISSION IMPLEMENTING REGULATION (EU) 2019/1130 of 2 July 2019 on  
the uniform conditions for the harmonised application of territorial typologies  
pursuant to Regulation (EC) No 1059/2003 of the European Parliament and of the  
Council**

THE EUROPEAN COMMISSION,

Having regard to the Treaty on the Functioning of the European Union,

Having regard to Regulation (EC) No 1059/2003 of the European Parliament and of the Council of 26 May 2003 on the establishment of a common classification of territorial units for statistics (NUTS) (1), and in particular Article 4b(5) thereof,

Whereas:

- (1) Regulation (EC) No 1059/2003 constitutes the legal framework for the regional classification of the Union in order to enable the collection, compilation and dissemination of harmonised regional statistics.
- (2) Article 4b of Regulation (EC) No 1059/2003 empowers the Commission to establish at Union level uniform conditions for the harmonised application of the territorial typologies referred to in that Article.
- (3) Those conditions should describe the method for assigning the typologies to individual local administrative units (LAUs) and Nomenclature of Territorial Units for Statistics (NUTS) level 3 regions.
- (4) When applying the uniform conditions, it is important to take account of geographical, socioeconomic, historical, cultural and environmental circumstances.
- (5) The measures provided for in this Regulation are in accordance with the opinion of the European Statistical System Committee,

HAS ADOPTED THIS REGULATION:

*Article 1*

The uniform conditions for the harmonised application of the grid-based typology and the LAU-level and NUTS level 3 typologies shall be those set out in the Annex.

*Article 2*

This Regulation shall enter into force on the twentieth day following that of its publication in the Official Journal of the European Union.

This Regulation shall be binding in its entirety and directly applicable in all Member States.

Done at Brussels, 2 July 2019.

For the Commission

The President Jean-Claude JUNCKER

## Annex

1. The uniform conditions for the harmonised application of the grid-based typology shall be the following:

<b>Element as established in Regulation (EC) No 1059/2003</b>	<b>Labels</b>	<b>Conditions</b>
Grid-based typology	'Rural grid cells' or 'Low density grid cells'	1 km <sup>2</sup> grid cells with density below 300 inhabitants/km <sup>2</sup> and other cells outside urban clusters.
	'Urban clusters' or 'Moderate density clusters'	Contiguous (including diagonals) 1 km <sup>2</sup> grid cells with a density of at least 300 inhabitants/km <sup>2</sup> , and a minimum of 5 000 inhabitants in the cluster.
	'Urban centres' or 'High density clusters'	Contiguous (without diagonals) 1 km <sup>2</sup> grid cells within the 'urban cluster' with a density of at least 1 500 inhabitants/km <sup>2</sup> and a minimum of 50 000 inhabitants in the cluster after gap filling.

2. The uniform conditions for the harmonised application of the typologies at LAU level shall be the following:

<b>Element as established in Regulation (EC) No 1059/2003</b>	<b>Labels</b>	<b>Conditions</b>
Degree of urbanisation (DEGURBA)	'Urban areas'	'Cities' or 'Densely populated areas' LAU level territorial units where at least 50 % of the population lives in urban centres.
	'Towns and suburbs' or 'Intermediate density areas'	LAU level territorial units where less than 50 % of the population lives in rural grid cells and less than 50 % lives in urban centres.
	'Rural areas' or 'Thinly populated areas'	LAU level territorial units where at least 50 % of the population lives in rural grid cells.
Functional urban areas	'Functional urban areas'	'Cities' LAU level territorial units defined as 'Cities' or 'Densely populated areas'
	'Commuting zone'	LAU level territorial units from which at least 15 % of the employed population commutes to the city, whereby enclaves are included and exclaves are excluded.
Coastal areas	'Coastal areas'	LAU level territorial units that border the sea or that have at least 50 % of their surface within a distance of 10 km from the sea. Enclaves (non-coastal LAUs surrounded by adjacent coastal LAUs) are added.
	'Non-coastal areas'	LAU level territorial units that are not 'Coastal areas' i.e. that do not border the sea and have less than 50 % of their surface within a distance of 10 km from the sea.

3. The uniform conditions for the harmonised application of the typologies at NUTS level 3 shall be the following:

<b>Element as established in Regulation (EC) No 1059/2003</b>	<b>Labels</b>	<b>Conditions</b>
Urban-rural typology	'Predominantly urban regions'	NUTS level 3 regions where at least 80 % of the population live in urban clusters.
	'Intermediate regions'	NUTS level 3 regions where more than 50 % but less than 80 % of the population live in urban clusters.
	'Predominantly rural regions'	NUTS level 3 regions where at least 50 % of the population live in rural grid cells.
Metropolitan typology	'Metropolitan regions'	A single or an aggregation of NUTS level 3 region(s) in which at least 50 % of the population live in functional urban areas of at least 250 000 inhabitants.
	'Non-metropolitan regions'	NUTS level 3 regions that are not 'Metropolitan regions'.
Coastal typology	'Coastal regions'	NUTS level 3 regions that border the sea, or those in which at least 50 % of the population live within 50 km from the coastline, as well as the NUTS level 3 region of Hamburg (Germany).
	'Non-coastal regions'	NUTS level 3 regions that are not 'Coastal regions'.

## **GETTING IN TOUCH WITH THE EU**

### **In person**

All over the European Union there are hundreds of Europe Direct information centres. You can find the address of the centre nearest you at:  
[https://europa.eu/european-union/contact\\_en](https://europa.eu/european-union/contact_en)

### **On the phone or by email**

Europe Direct is a service that answers your questions about the European Union.

You can contact this service:

- by freephone: 00 800 6 7 8 9 10 11 (certain operators may charge for these calls),
- at the following standard number: +32 22999696 or
- by email via: [https://europa.eu/european-union/contact\\_en](https://europa.eu/european-union/contact_en)

## **FINDING INFORMATION ABOUT THE EU**

### **Online**

Information about the European Union in all the official languages of the EU is available on the Europa website at: [https://europa.eu/european-union/index\\_en](https://europa.eu/european-union/index_en)

### **EU publications**

You can download or order free and priced EU publications at:

<https://publications.europa.eu/en/publications>. Multiple copies of free publications may be obtained by contacting Europe Direct or your local information centre (see [https://europa.eu/european-union/contact\\_en](https://europa.eu/european-union/contact_en)).

### **EU law and related documents**

For access to legal information from the EU, including all EU law since 1952 in all the official language versions, go to EUR-Lex at: <http://eur-lex.europa.eu>

### **Open data from the EU**

The EU Open Data Portal (<http://data.europa.eu/euodp/en>) provides access to datasets from the EU. Data can be downloaded and reused for free, for both commercial and non-commercial purposes.

# **Statistical regions in the European Union and partner countries**

## **NUTS and statistical regions 2021**

This document presents the current NUTS nomenclature with 104 regions at NUTS level 1, 283 at NUTS level 2 and 1 345 at NUTS level 3. The NUTS is the official division of the EU and the UK for regional statistics, visualised on maps. For EFTA and candidate countries, the similar concept of 'statistical regions' is used. These are as well part of this document.
